Sex Male | Date of birth 30 Apr 1981 | Nationality Serbian

PERSONAL STATEMENT

Creative Designer / Clean Coder. HTML5, CSS3, JS, jQuery master. Cutting edge FrontEnd developer. Teacher and Activist.

As a professional with more than eight years of experience I have a background of successfully developing a websites layout, usability and appearance in latest HTML5 and CSS3 techniques with slick JavaScript functionality. Completely committed to Responsive design, with passion to explore new tools (like Angular, MEAN stack, Ember) and to upgrade 'old' ones, like Sass, Yeoman, Grunt, Bootstrap.

As a long time Senior Developer I've acquired a rich skill-set:

- HTML5 (Semantic, forms and APIs), CSS3, Sass, Less (Mixins, Functions, Placeholders, Compass)
- Responsive design (Smart media queries, IOS/Android specific fixes, Polyfills), Bootstrap, Foundation (Custom builds, rarely full frameworks)
- JavaScript (ES6), ReactJs, jQuery, CommonJS, NodeJS (modular JS, careful events, object literal pattern)
- Restful API, Ajax, JS templating (MustacheJS), JSON, JSONP
- Grunt (Custom tasks and plugins), Yeoman, Bower (Complex project builds, not just JS, CSS, images optimization)
- Git, Svn, Heroku, Redmine, Jira, Agile
- Magento, Demandware, Hybris, AEM (Adobe), Joomla, WordPress, MVC
- Ruby on Rails (Rails part), CodeIgniter, PHP
- Ecommerce enterprise large scale projects
- PhotoShop, Illustrator (Pixel perfect, custom fonts, icons and font icons)
- Cross browser (even IE8), Progressive Enhancement
- Page load speed, SEO (Above the fold focus, 80+ Google Page speed)

WORK EXPERIENCE

15 Nov 2015–Present

Senior Frontend Engineer

Namics ag

Namics is the biggest Web Agency in Switzerland, leading provider for e-business and online-communication.

Major platforms: Hybris, Adobe Experience Manager, WordPress.

- Configuring Grunt, Webpack, Unit tests and build tools
- Responsive, mobile first development

- Pixel perfect coding: Creating grid, icons sprites, converting webfonts
- Crossbrowser compatibility (IE9 +)
- Team cooperation: Using Git and SVN, IntelliJ and Sublime text; Agile environment with bugtracking systems like Jira
- Platform specific development: AEM integration, Hybris RESTful API consuming, Thymeleaf templating

Apr 2014–15 Nov 2015

Magento Certified Frontend Developer

Westum

Westum is a digital technology company focused on E.Commerce and Web Presence. Major platforms for ecommerce: Magento, Demandware and Hybris.

Senior / Lead frontend developer – Main tasks:

- Creating project architecture
- Sass components and modular css
- CommonJS module structure
- Bower configuration for jQuery plugins
- Creating Grunt tasks and build tools
- Planing workflow based on wireframes
- Choosing frameworks (eg: Uikit, Bootstrap, but for most projects we go from scratch without any frameworks) and plugins (eg: bxslider vs nivo)
- Responsive, mobile development: Choosing breakpoints based on PSD mockups; Fluid layout, touch/swipe navigation, using modernizr, picturefill, Retina ready images; IOS and Android specific functionalities.
- Pixel perfect coding: Creating grid, icons sprites, converting webfonts
- Hi traffic websites with 100k + visitors per day: Increasing page load speed, minify and concat js and css, minifying images; SEO ready accessible tags, above the fold focus, Ecommerce specific SEO tracking
- Crossbrowser compatibility (IE8 in even 80% of projects)
- Building JavaScript functionalities: vanilla JS and with jQuery, using AJAX heavily, creating custom jquery plugins; JS templating;
- Team cooperation: Using Git and SVN, Eclipse and Sublime text; Agile environment with bugtracking systems like Jira and Redmine
- Platform specific development: Setting up Magento layout system; Creating custom widgets; Templating; PHP development; Demandware custom slots and assets design; DScript development
